# PEACE LOVE SALMON

YEAR IN REVIEW 2022-2023

## Message from the **EXECUTIVE DIRECTOR**

This has been a year we will not soon forget!

It has been a year of change for the ACFFA team. We sadly said goodbye to Betty House, our Science and Technology Coordinator and a long-time advocate for salmon, both farmed and wild. Her loss resonated across the industry in Atlantic Canada. Later in the year, we welcomed Evie Gagné as our Science Liaison Coordinator and Katelyn Harris as our Community Outreach and Education Coordinator to our team. Kathy Kaufield is now our full time Communications Director.

Advocacy and effective regulatory policies for the salmon farming sector remained our priority. As you will see in this Year in Review, we have been busy supporting this important industry in Atlantic Canada. The Association has worked hard this year to continue to be a strong voice on behalf of our industry and to take a leadership role in strategies that support responsible growth and global sustainability, advance fish health and welfare and encourage innovation and research.

Overall as I reflect on the year, it's been one of our busiest, and I know we still have lots of work to do. As we look to 2024, the ACFFA team will continue to focus on broad advocacy work, ensuring our relationships with our regulatory agencies remain effective for all parties, moving our work forward on diversity and equity and expanding the vital Fundy Salmon Recovery program that we are so proud to be a part of for so many years.

I'm proud of the ACFFA team and the work the Association has done for almost 40 years. We are so fortunate to work with so many aquaculture professionals who are global leaders in the evolution of this sector and who are creating jobs in Atlantic Canada's coastal communities.

I'm grateful for the support I continue to receive from so many colleagues across agencies, traditional fishers, association colleagues as well as my members and Board of Directors.

I'm looking forward to 2024!

**Susan Farquharson**

Executive Director

Atlantic Canada Fish Farmers Association

# WHO WE ARE

The Atlantic Canada Fish Farmers Association (ACFFA) is an industry-funded association working on behalf of the salmon farming industry in Atlantic Canada. The ACFFA represents finfish producers in addition to a wide range of supporting companies and organizations. Salmon farming employs over 8000 people and generates over \$2 Billion in total economic output in our region.

## OUR VISION

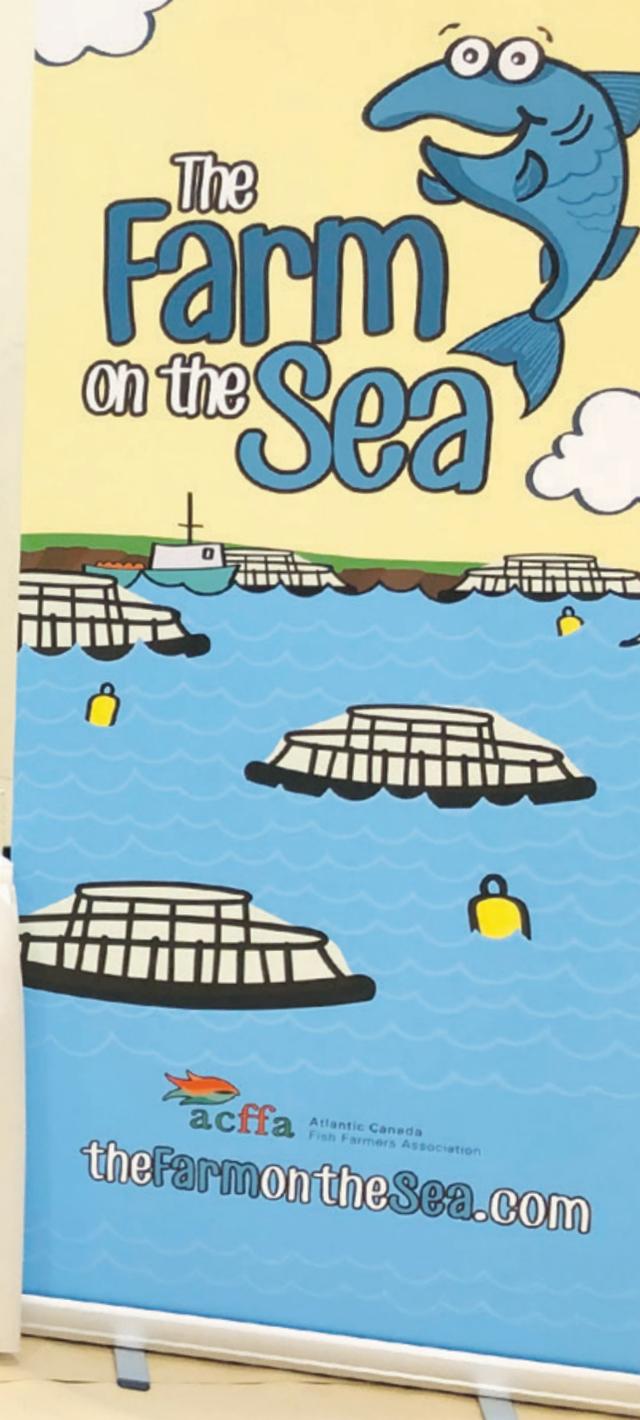

Premium fresh Atlantic Canadian farmed fish on every table

## OUR MISSION

Cultivating sector excellence, public pride, and consumer confidence

# ADVOCACY AND PROMOTION

With Communications Director Kathy Kaufield's transition to fulltime staff and the addition of Community Outreach and Education Coordinator Kateyln Harris to our staff, ACFFA has launched an exciting new chapter in our ongoing work to support advocacy and public education about Atlantic Canada's salmon farming sector. We are reaching audiences in a new way and the response has been overwhelmingly positive, especially the distribution of [The Farm on the Sea books](#) and stuffies.

# ADVOCACY AND PROMOTION

## EVENTS

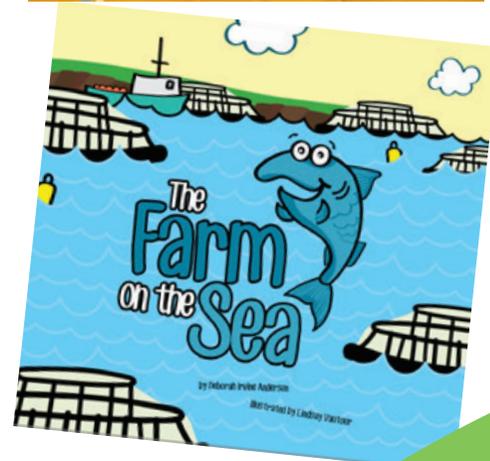

ACFFA's outreach activities reached at least 2,000 students, teachers and parents so far in 2023. Demand for The Farm on the Sea readings and classroom visits for careers is already high for the coming year.

- Canadian Agriculture Literacy Awareness Month – The Farm on the Sea readings at five NB schools
- Sponsored a booth at the 2023 Science Atlantic Aquaculture and Fisheries Biology Conference at the University of New Brunswick in Saint John
- Guest speakers at Prof. Thierry Chopin's "History and Development of Aquaculture" class at the University of New Brunswick in Saint John
- Carleton North Ag Expo, hosted by the Honourable Margaret Johnson, NB Minister of Agriculture, Aquaculture and Fisheries
- Two virtual presentations as part of NB Science Week in April. Our presentation (Salmon Science: Captivating Creatures of the Ocean Floor) was recorded by 26 classrooms across the province.
- Career Fair Chris Saunders Elementary School in Quispamsis
- New Brunswick Teachers' Association Council Day in Moncton, NB (50 sign ups for classroom readings)
- Fundy Coastal District Girl Guides and Tiny Tots daycare – The Farm on the Sea readings

- FREX – booth alongside Agriculture in the Classroom
- Organized and ran a salmon farming activity as part of "Our Amazing Place SWNB" in Campobello
- Beach Clean Up with Cooke Aquaculture on World Oceans Day
- Assisted with Grand Manan fisheries/aquaculture tour as part of Responsible Seafood Summit
- Assisted with farm tour for University of Waterloo students

# ADVOCACY AND PROMOTION

## SUPPORT MATERIALS CREATED

- Branded backdrop, table runners, banners and signage for career fairs and school visits
- "Let's Connect" brochure that highlights what activities/tools we can bring to events
- Reprint of Uniquely Atlantic stickers, The Farm on the Sea books and stuffies
- Branded PowerPoint Presentations
  - An overview of salmon farming and innovations and science behind the environmental monitoring of the ocean floor in and around salmon farms
  - Careers in aquaculture

## COLLABORATIONS

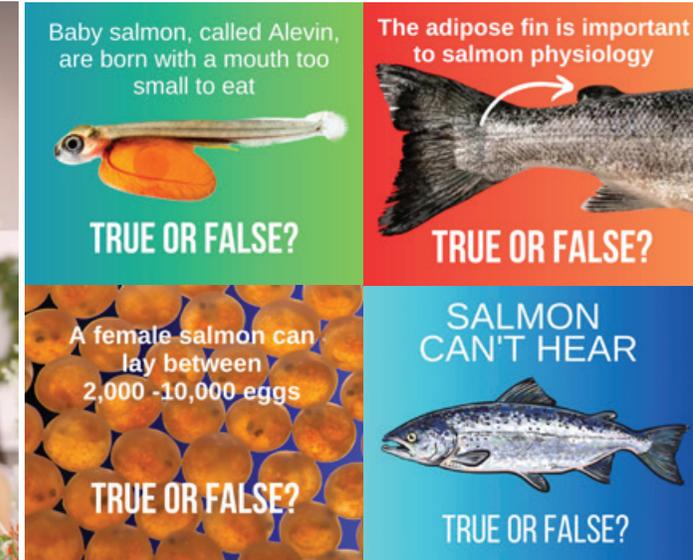

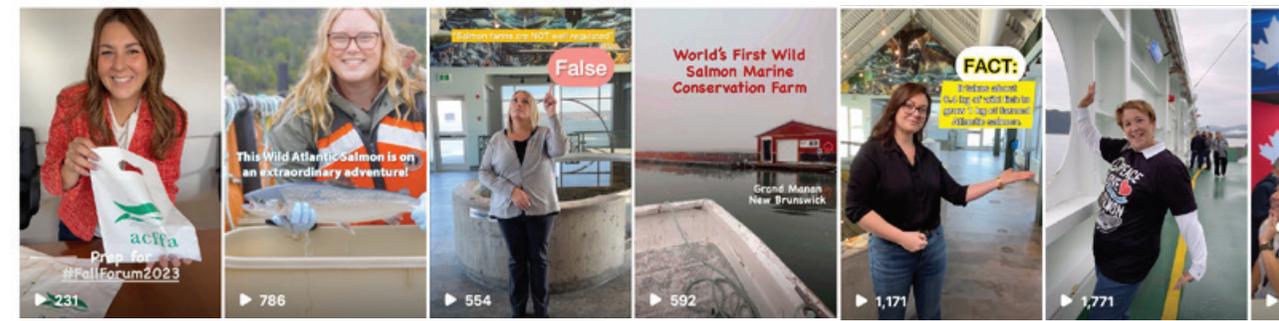

- Agriculture in the Classroom NB/Agriculture in the Classroom Canada: We are now routinely involved in their AG Expos. The national group is moving ahead with including our Farm on the Sea website and materials on their teacher resources page and we will likely participate next year in their popular virtual Farm Tours.
- Worked with Agricultural Alliance of NB to feature two salmon farms in their Farm of the Month series on social media
- NB Centres of Excellence in discussions about collaboration
- Worked with Anglophone School District Science Coach to help create their "Salmon Boxes" delivered to elementary schools this fall. Donated materials included The Farm on the Sea books and stuffies; Cooke Inc. donated rope and net samples and salmon scales.
- Working with DAAF on preliminary plans for their Aquaculture 101 course
- SW Fundy Progressive Protection Council – contributed content on our sector to their Then/Now series

# ADVOCACY AND PROMOTION

## SOCIAL MEDIA

- Video shoots to gather content for TikTok and Instagram, career videos and stock photos
- Huntsman Marine Science Centre (Skretting, SimCorp, Mowi, Cooke)
- Wild salmon marine conservation farm in Dark Harbour
- Salmon release with Fort Folly First Nation in Elgin
- 20 new IG reels, including our continuing 'myth busting' series
- Launch of ACFFA TikTok account
- Salmon Sundays continue to be popular
- Holiday campaign including 'Turkey vs Atlantic Salmon' video, Salmon holiday meal and 'Celebrate with Salmon' holiday appetizers campaign and Holiday 'Pop Up' shop fundraiser for local food banks
- Family Day Giveaway Contest
- NB Science Week – interactive quizzes on Facebook and Instagram
- Canadian Agriculture Literacy Month – Facts about salmon farming
- Nutrition Month social media posts
- Summer 'Atlantic Grown/Atlantic Proud' t-shirt campaign

## OTHER COMMUNICATIONS ACTIVITIES:

- Op-Ed – Nova Scotians Deserve Clarity on Salmon Farming
- Feature story on ACFFA and our sector in Focus on Resources Magazine
- Atlantic salmon farming pamphlet mailed to Nova Scotia communities
- FAQs about Salmon Farming in New Brunswick – distributed to whale watching tour operators in Bay of Fundy
- ACFFA website refresh underway

## ATLANTIC SALMON FARMING IN NEW BRUNSWICK

### Atlantic Salmon Farming Facts NEW BRUNSWICK

**1978**  
FIRST COMMERCIAL SALMON FARM in eastern Canada was established in Lord's Cove, near Deer Island, New Brunswick in 1978

Today there are approximately **90** farm sites in New Brunswick

The salmon farming sector accounts for approximately one in every five jobs in Charlotte County, New Brunswick

More than **5500** WORKERS EMPLOYED in New Brunswick and **1300** LOCAL BUSINESSES supported by salmon farming in Atlantic Canada

IN ATLANTIC CANADA, FARMERS PRODUCE **323 million** salmon meals every year

By almost all measures, farmed Atlantic salmon is the most sustainable large-scale animal protein (Color FARM Protein Footprint Index)

FARMING THE OCEAN IS IDENTIFIED AS ONE OF FIVE PRIORITIES TO ADDRESS CLIMATE CHANGE (LIMITED NATIONS 2019)

### Frequently Asked Questions

**How are farmed Atlantic salmon grown?**  
Farmed Atlantic salmon begin their life cycle as eggs, which are collected from salmon broodstock. The young fish are reared from eggs in land-based freshwater hatcheries. Currently, when the fish become smolts and are biologically ready to move to salt water, farmers move them to ocean farms where they remain in large floating pens until they are ready to be harvested.

**What do farmed Atlantic salmon eat?**  
Farmed salmon eat nutrient-dense, dry pellets made from animal, plant and fish proteins of natural origin which provide essential vitamins and minerals.

**What is in the feed?**  
Two important ingredients are fishmeal and fish oil, which ensure salmon contain high levels of omega 3 fatty acids that are good for your heart and mind. Fishmeal and fish oil come primarily from several sources including forage fish not eaten by humans. Our feed companies source fishmeal from the by-products of local fisheries whenever possible. All fish feed ingredients are approved for use by the Canada Food Inspection Agency.

**Are farmed Atlantic salmon dyed pink?**  
No. Carotenoids – the same natural ingredients found in carrots and egg yolks – are added to their diet to provide the fish with vitamin A and give them their pink colour. No artificial dyes are ever used.

**What are those pipes leading into the farm?**  
Those tubes carry feed to the fish from a barge where farmers use underwater cameras and sensors to ensure the fish aren't over fed. The fish are fed specialised feed tailored to their life stage to improve digestibility and decrease waste. These modern feeding systems can be managed remotely.

# ADVOCACY AND PROMOTION

## POLLING

2023 polling from Narrative Research showed continued strong support for salmon farming in Atlantic Canada. The poll found 81 per cent of Atlantic Canadians support aquaculture and agree that local salmon farming is a reliable and sustainable source of protein. The survey also found 87 per cent of Atlantic Canadians agree sustainable aquaculture helps to ensure food security in our region. ACFFA has sent the polling results to regional and federal elected officials.

## SEAFOOD EXPO NORTH AMERICA 2023

The ACFFA once again coordinated the Atlantic Canada Pavilion at Seafood Expo North America, the largest seafood exposition in North America, which was held in Boston in March. ACFFA Secretary-Treasurer David Seeley served as emcee for the official opening of the pavilion. Attendance at the opening event included: ACOA Minister Hon. Ginette Petitpas-Taylor; NB Agriculture, Aquaculture and Fisheries Minister Hon. Margaret Johnson; NS Minister of Fisheries and Aquaculture Hon. Steve Craig; NL Minister of Fisheries, Forestry and Agriculture Hon. Derrick Bragg; Canada's Fisheries and Oceans Minister Hon. Joyce Murray; and, Roger Cuzner, Consul General of Canada in Boston. Plans are underway now for the 2024 event.

# REGULATORY AFFAIRS AND FARMING OPERATIONS

## **ATLANTIC PROVINCES AQUACULTURE COORDINATING TABLE (APACT)**

The APACT includes aquaculture associations in the region during one meeting per year to discuss industry priorities and issues. Government attendees include Andrew Sullivan and Jennifer Acheson, NB; Bruce Hancock and Carla Buchan, NS; Daryl Whelan, Nicole Rowsell and Stephanie Synard, NL; Dr. Jill Wood, Janelle Arsenault, Kim Gill and Neil MacNair, PEI.

## **NB INDUSTRY GOVERNMENT WORKING GROUP AND THE AQUACULTURE ENVIRONMENTAL COORDINATION COMMITTEE**

These two committees have now merged and continue to meet twice annually to discuss important agenda items including policy reviews and annual report cards and reports. The last meeting was held on September 12th, 2023, with agenda items that included NB regulations, environmental reporting and the pest management report card.

## **MARINE PROTECTION AREAS (MPAS)**

The Southwest Fundy Progressive Protection Council meetings have continued with new approval of continued support funds from DFO. Two staff have been hired via the Grand Manan Fishermen's Association to assist with coordination of the project. These staff will present the project during ACFFA's Aquaculture Science, Technology and Research Forum on October 26th.

# REGULATORY AFFAIRS AND FARMING OPERATIONS

## NEW BRUNSWICK AQUACULTURE REGULATIONS AND GROWTH STRATEGY

The Growth Strategy was finalized this year and is now posted. A committee that includes ACFFA staff and members has been established and will meet again in November 2023 at which time the strategy will be reviewed and updated if necessary. Currently the next action to discuss is the bay management area structure. The Public Registry noted in the regulations is still a few months out and the committee will work with DAAF as it is developed.

## MINISTER MURRAY STATEMENT ON SALMON FARMING

In July 2023, the Canadian Council of Fisheries and Aquaculture Ministers (CCFAM) issued a statement about how they are working together to protect the fisheries and aquaculture sector in Canada. The statement included this paragraph: "Ministers discussed their respective aquaculture priorities. Minister Murray reiterated that the implementation of a federal plan to transition from open-net pen salmon farming in coastal British Columbia waters will not extend to Eastern Canada, where provinces are the lead regulators for the management and development of aquaculture. Minister Murray expressed her support for a sustainably managed aquaculture industry and recognized that aquaculture is a legitimate user of the waters in Eastern Canada."

## NASCO 2023

The ACFFA participated in the Fortieth Annual Meeting of NASCO, which took place June 5-8, 2023, at the Delta Beausejour Hotel Moncton, New Brunswick, Canada. ACFFA ED Susan Farquharson was part of the Canadian delegation. Delegates participated in a tour of the Fundy Salmon Recovery project hosted by Fort Folly Habitat Recovery.

## THE VOICE OF OUR MEMBERS

**ACFFA represents its members on the following committees:**

Aquaculture Association of Canada  
Atlantic Canada Seafood Sector Export Team  
Atlantic Salmon Advisory Committee  
Canadian Aquaculture Industry Alliance  
Fundy Salmon Recovery Team  
International Salmon Farmers Association  
SWNB Marine Debris Committee  
Musquash MPA Advisory Committee  
NB Industry Government Working Group and Aquaculture Environmental Coordination Committee  
NB Aquaculture Development Strategy Oversight Committee  
Progressive Protection Council – Bay of Fundy  
North Atlantic Salmon Conservation Organization (NASCO) – Canadian Delegation  
Saint John River Management Advisory Committee

# INNOVATION AND SKILLS DEVELOPMENT

## ANNUAL AQUACULTURE RESEARCH, SCIENCE AND TECHNOLOGY FORUM

Approximately 135 salmon farmers, industry stakeholders, scientists, researchers, provincial and federal government representatives, and community members came together both in-person and virtually for the ACFFA's 2022 Aquaculture Research, Science and Technology Forum in St. Andrews, NB. Stan McGrattan, an aquaculture professional whose career dates back to Atlantic Canada's first Salmonid Demonstration and Development Farm nearly four decades ago, was honoured as the recipient of the 2022 Atlantic Canada Aquaculture Award. A Charity Casino held during the Gala dinner raised \$2,500 to initiate an ACFFA student grant which will be awarded in 2024.

ACFFA Chair Tom Taylor; Stan McGrattan, 2022 recipient of the Atlantic Canada Aquaculture Award; ACFFA Executive Director Susan Farquharson

# INNOVATION AND SKILLS DEVELOPMENT

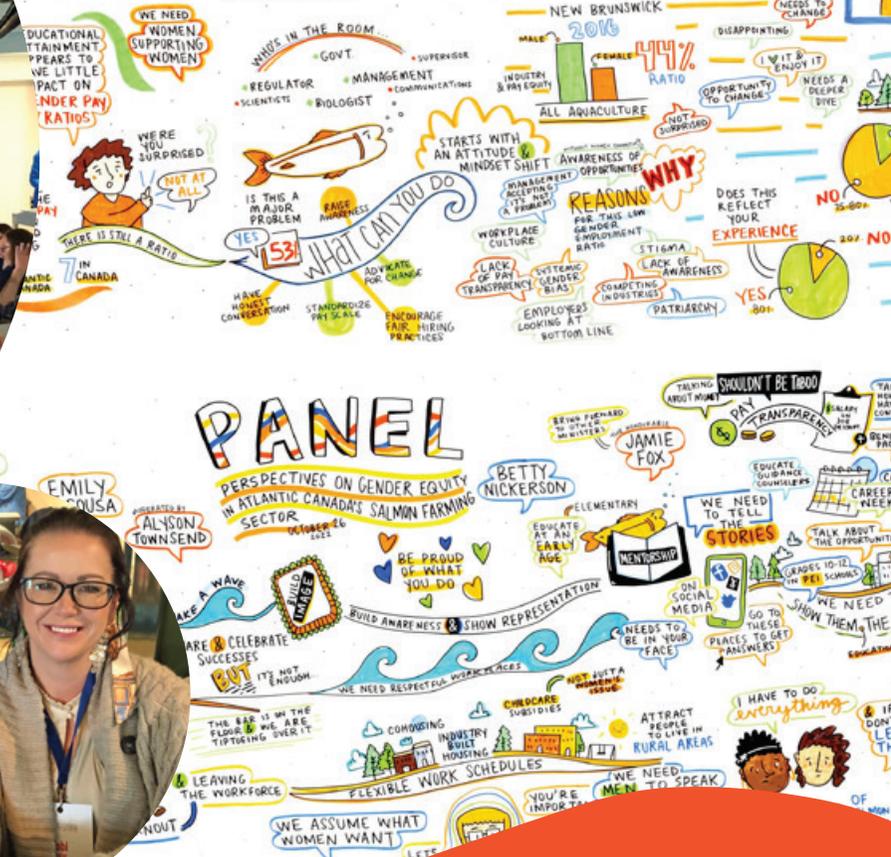

## WOMEN OF SALMON FARMING SYMPOSIUM

This 2022 Aquaculture Research, Science and Technology Forum was held in conjunction with a Women of Salmon Farming Symposium, a first-of-its-kind event in Atlantic Canada aimed at harnessing opportunities for women and improving gender equity in our region's salmon farming sector. Participants reviewed the high-level insights from ACFFA's study: Gender-Based Opportunities and Challenges in Salmonid Farming in Atlantic Canada which examines gender equity throughout Atlantic Canada's salmon farming value chain. The symposium included interactive discussions with participants whose feedback will assist ACFFA in taking concrete steps as an association and an industry to address labour challenges and help close the equity gap so we can continue to play our important role in global food security.

# INNOVATION AND SKILLS DEVELOPMENT

## THE RESPONSIBLE SEAFOOD SUMMIT 2023

The ACFFA cohosted the Responsible Seafood Summit (previously known as the Global Outlook for Aquaculture Leadership conference) in Saint John, New Brunswick during the week of Oct 2-5. During the Summit, ACFFA facilitated a workshop on Diversity, Equity, and Inclusion with the support of Ernst and Young. This was a follow up to our 2022 Women in Salmon Farming Symposium. Input gathered at the workshop will be used by ACFFA going forward to create a project committee. The Summit brought together 350 aquaculture executives, influencers, thought leaders from around the globe to discuss the foremost issues shaping the seafood industry. As part of the Summit, the ACFFA hosted a highly enjoyable Taste of Atlantic Canada gala dinner and show featuring comedian James Mullinger at the Imperial Theatre in Saint John. Many thanks to our members for the donation of fresh and delicious seafood that helped make our evening such a hit!

# INNOVATION AND SKILLS DEVELOPMENT

## ATLANTIC AQUACULTURE MISSION TO NORWAY AND AQUA NOR 2023

ACFFA once again led a mission with 53 delegates representing the aquaculture value chain and senior regulators and politicians. Ministers, Deputy Ministers and/or senior staff responsible for aquaculture from all four Atlantic provinces attended. The mission included site visits and B2Bs from Stavanger to Trondheim. Once at Aqua Nor, which saw a record number of attendees (>16,000), ACFFA managed the Atlantic Canada booth sponsored by ACOA and the Province of New Brunswick. Our 'Peace, Love and Farmed Atlantic Salmon' t-shirts, stickers and key chains were extremely popular with Aqua Nor delegates!

# INNOVATION AND SKILLS DEVELOPMENT

## FIRST NATION PARTNERSHIPS/WILD SALMON CONSERVATION

Our multi – year Atlantic Fisheries Fund proposal for 1.2M to support the inner Bay of Fundy wild salmon conservation project with Fort Folly First Nations, Parks Canada, and UNB has been approved after a three-year review. The Passamaquoddy First Nations in the outer Bay of Fundy is still under review.

## FUNDY SALMON RECOVERY

More than 100 returns were found in the partner rivers so far in 2023. Partners returned 1,169 wild maturing salmon to the three inner Bay of Fundy rivers in the first two weeks of October. Fort Folly First Nation held a celebration of the program and a public fish release in Elgin on October 13. During that release celebration, Helena House Crant, sister of the late Betty House, released a fish in Betty's honour. There are 1300 2022-year class immature salmon currently on the wild salmon marine conservation farm held over for release in 2024, in addition to 3000 2023-year class fish, some of which will also be released in 2024. Partners of the program will meet on October 30th to discuss the future of the program in regard to needs and expansion.

# ASSOCIATION ACTIVITIES

## GULF OF MAINE INDUSTRY AWARD FOR ENVIRONMENTAL LEADERSHIP AND INNOVATION

The Gulf of Maine Council on the Marine Environment selected the Atlantic Canada Fish Farmers Association (ACFFA) as the recipient of its 2023 Industry Award. The award recognizes demonstrated innovation and leadership in efforts to improve the well-being of the Gulf of Maine ecosystem and the communities that call it home. The award cited ACFFA's "outstanding leadership toward sustainable and environmentally responsible finfish production in the Gulf of Maine." The Gulf of Maine Council on the Marine Environment, created in 1989 by the governments of Maine, Massachusetts, New Brunswick, New Hampshire and Nova Scotia, works to foster environmental health and community well-being throughout the Gulf watershed.

## WELCOME TO THE ACFFA TEAM!

Katelyn Harris – Community Outreach and Education Coordinator

Evie Gagné - Science Liaison Coordinator

Christie Ward from the NB Dept of Environment and Local Government presents the award to ACFFA ED Susan Farquharson

## ACFFA GOLF TOURNEY

We had a great turnout for ACFFA's 2023 Golf Tourney! Tourney Champs 2023: Team LCR Plastic Supplies Ltd. Team members: Greg Groom, Ryan MacDonald, Roger Waycott and Larry Ingalls. Congratulations! Thank you to all the teams for participating and for donating prizes!

## FOOD BANK DONATION

On behalf of our members, ACFFA donated turkey dinners with all the fixings for five families to the St. George and Area Food Bank just before the holidays in December 2022.

## NEW MEMBERS

ACFFA welcomed a new Member this year: Canadianpond.ca

## 2023 SOCIO-ECONOMIC STUDY

RIAS Inc. has been contracted to update the 2020 study they conducted for ACFFA. The updated report will be available in early 2024.

## WOODWARDS COVE WHARF

Infrastructure priorities remain focused on ensuring we have access to safe wharves. We have secured provincial and economic development funds to support the next step in rebuilding the wharf at Woodward's Cove, Grand Manan. ACFFA co-chairs the Woodward's Cove Wharf project committee with DFO which is progressing to complete the coastal study portion. The environmental assessment will be completed and the project shovel ready by end of calendar year.

Matt Markey won this year's Putting Contest! He played on the RPC team with his wife and ACFFA Board Member Rebecca Liston.

## MEMBER BENEFITS

- Representation at all levels of government on issues of industry importance
- Regular information & updates relevant to business
- Networking opportunities to deepen business relationships and contacts
- Access to a variety of conferences, workshops, seminars and training opportunities
- Access to Limekiln Service Center wharf services
- Opportunities to collaborate on research and innovation projects
- Access to an industry-specific support system and working groups
- Company promotion on our website and social media channels
- Participation in public education & awareness initiatives

ACFFA membership is open to any company, institution or individual engaged in growing finfish products commercially, producing feed, research or development activities, education, or providing goods or services to the finfish farming sector in Atlantic Canada.
